

Targeted Assessment Abatement Program Information Sheet

Overview

Collaboratively with the Economic Development and Finance Departments, the Information Technology Department has published to the web site details of a Town Council program to encourage investment in older properties in Enfield.

Publicizing the Targeted Assessment Abatement Program on the Town web site serves the public interest by providing detailed information on a tax incentive available to property owners who make substantial improvements to older properties.

The web site includes a printable application form, the text of the Town Council Resolution, the program

brochure, and a list of properties in qualifying areas of town. The property listing was extracted from the Assessor's database based on census tract and zoning codes.

Eligible Properties for Tax Deferral Program - Microsoft Internet Explorer

Address: http://www.enfield.org/tax/Abatement_Prog/Eligible_Frames.htm

- Not applicable for completed projects
- Property improvements must be 25 years old
